

Automatic Pump Control 2.2kW 1" M 80°C cable RD-EPC08

Art. number: **070195**

Barcode: **3800972038097**

- ✓ Adjustable pressure gauge for fine tuning - Allows the user to set highly accurate pressure values according to system requirements, ideal for specific pressure settings and non-standard hydrophore installations
- ✓ Supports pressure up to 10 bar - The higher limit makes it suitable for powerful pumps, long pipeline systems, irrigation networks, and industrial applications
- ✓ Intelligent dry-run protection - Automatically monitors water flow to prevent the pump from running without water, which is one of the most common causes of pump failure
- ✓ Advanced operating modes - normal and automatic - Provides flexibility and adaptability for various installation types
- ✓ Digital display with multiple indicators - Shows real-time pressure and all essential parameters, making setup and system diagnostics easier and more accurate

TECHNICAL FEATURES

Parameter	Measure Unit	Value
Maximum working pressure (bar)	bar	10
Discharge port (")	Inch	1
Rated input power (W)	W	2200
Rated voltage type		Corded - Electrical Grid
Suction aperture (")		1

LOGISTICS INFORMATION
