

Solar Panel for Robotic Lawn Mower 24V 1A 24W

Art. number: **075369**

Barcode: **3800972041110**

✓ The solar panel for the charging station is specially designed to power battery-operated lawn mowers that run on 24V systems. The panel converts solar energy into a stable electrical supply, enabling efficient and eco-friendly battery charging.

✓ The model provides an output voltage of 20.5-23V and an output current of up to 1A, with a maximum panel power of 25W. The panel has a maximum current of 1A and a maximum voltage of 29V, ensuring stable and safe charging for connected devices.

✓ This solar panel is ideal for outdoor use in direct sunlight, reducing dependence on the electrical grid and offering mobility and convenience to the user.
