

R20 Water Pump 53L/min 10m Solo RDP-CWP20

Art. number: **075753**

Barcode: **38009720317774**

✓ The RDP-CWP20 operates on 20V DC and uses the standard R20 System rechargeable battery. This allows the pump to be used anywhere — without the need for a power grid, extension cords, or generators.

✓ The battery housing is made from high-durability, premium-grade materials that provide reliable protection against moisture, splashes, and mechanical impact, ensuring long service life and safe battery operation.

✓ Power is supplied to the pump through a robust cable connection between the battery and the submersible module, guaranteeing stable and safe performance even under continuous load.

✓ Maximum flow rate (Qmax): 53 l/min – Enables fast and efficient transfer of large volumes of water, suitable for both domestic and professional applications.

✓ Maximum head (Hmax): 10 m – Ensures consistent pressure for pumping to higher levels, ideal for draining deeper areas or delivering water to elevated points.

✓ Protection rating: IPX8 — maximum water protection for full submersion. IPX8 is one of the highest degrees of water resistance.

✓ The machine is sold without batteries and charger.

TECHNICAL FEATURES

Parameter	Measure Unit	Value
Maximum delivery rate (l/h)	l/h	3180
Maximum delivery height (m)	m	10
Discharge port (")	Inch	3/4
Rated voltage (V)	V	20
Application		Sewage Water
Rated voltage type		Battery
